The second and third cover material in paragraph 1b for the purpose of (a) assisting OGC in its negotiations with the Department of Justice to determine what legal recourse might be taken by the government, and (b) enabling DDO to make a damage assessment and determine what, if any, protective action is feasible.

3. The working group should, therefore, give its first attention to items in paragraphs 1a and b. Members of the working group should be authorized to obtain the assistance of other officers in each component who may be able to help in identifying and defining specific problems as noted above.
